of health care technology assessment. As Chairman of the STG, I am delighted to present this report, and I thank the Commission very sincerely for its rapid and excellent work.

Anticipating and Assessing Health Care Technology, Volume ...

The purpose of the study, as formulated by the STG, was to analyze future health care technology. Part of the task was to develop an 'early warning system' for health care technology. The primary goal of the project was to develop a list or description of a number of possible and probable future health care technologies, as well as information on their importance. Within the limits of time and
