Only a doctor familiar with a person's medical history, type of cancer, stage, characteristics of the cancer, treatments chosen and response to treatment can put all of this information together with survival statistics to arrive at a prognosis.

[History of books - Wikipedia](#)

The history of books starts with the development of writing, and various other inventions such as paper and printing, and continues through to the modern day business of book printing. The earliest history of books actually predates what would conventionally be called "books" today and begins with tablets, scrolls, and sheets of papyrus. Then hand-bound, expensive, and elaborate books known as
