Many consultants see BPMN as the Rolls Royce of business process modeling techniques because most other forms of business process modeling were developed for other purposes and then adapted. In fact, BPMN is the culmination of a process in which businesses sought a best practice method for business process modeling.

Nevertheless, there are analysts and consultants who prefer other methods.

Why & How: Business Process Modelling > Business Analyst ...

For the purposes of this article, a process is a connected series of business activities that result in a significant business outcome, and a process model is the specification of a process sufficient to allow a solution to be designed, developed and implemented (computerised or not). From this it should be obvious that process modelling is all the activities that need to be undertaken to
