E-business and the cloud - Claranet UK

White Paper E-business and the cloud Why cloud is a good platform for e-business On-demand flexibility and scalability The flexibility and scalability of cloud is well-suited for e-business, whether to support online marketing campaigns or other traffic spikes. The scalability of the infrastructure means that businesses can draw on additional server resources on-demand, to support peak traffic

4 Reasons: Why Cloud Computing in E-Commerce is Important?

A cloud-based platform with built-in redundancy can save the business from data loss. It keeps the data secure, backed-up and easily accessible. An e-commerce business depends hugely on the data of its customers. At the time of catastrophic data losses or security threats, redundancy (or the built-in duplication of systems, data, equipment, and other components) helps to overcome the disaster

Cloud computing | MIT News

MIT Auto-ID Labs launches Cloud of Things initiative. Initiative brings together academia, industry to support the development, adoption, best practices and commercial success of big-data applications in mobile retail commerce.
