### **An interactive fuzzy multi-objective optimization method ...**

An interactive fuzzy multi-objective optimization method for engineering design Hong-Zhong Huang, Ying-Kui Gub, tively, in this work, a fuzzy interactive multi-objective optimization model is developed with adding a metric function and additional constraints. This model generates a Pareto optimal set rst. A favorable optimal solution is then selected from the Pareto optimal set with

### **An interactive fuzzy multi-objective optimization method ...**

To handle these problems, a fuzzy interactive multi-objective optimization model is developed based on Pareto solutions, where the metric function and some additional constraints are added to ensure the collaboration among design objectives. The trade-off matrix at the Pareto solutions was developed, and the method for selecting weighting coefficients of optimization objectives is also
