network monitoring - unexplainable packet drops with 5 ...

unexplainable packet drops with 5 ethernet NICs and low traffic on Ubuntu. Ask Question 4. I'm stuck on problem where my machine started to drops packets with no sign of ANY system load or high interrupt usage after an upgrade to Ubuntu 12.04. My server is a network monitoring sensor, running Ubuntu LTS 12.04, it passively collects packets from 5 interfaces doing network intrusion type stuff
