Medical and Laboratory Applications for Leaded X-Ray Glass Lead lined glass is widely used for medical applications because it provides high visibility without compromising the ability to monitor patients during treatment and procedures.

How to Make an Inexpensive DIY Leaded Glass

Window

Our home has two beautiful leaded glass windows, and the small top window in our dining room looked like a prime location for more leaded glass, but it was just plain. I presume that's because the window below used to be operational, and the motion would have shattered a fragile leaded glass window.

How to Make a Leaded Glass Panel (with Pictures) - wikiHow

wikiHow is a wiki, similar to Wikipedia, which means that many of our articles are co-written by multiple authors. To create this article, volunteer authors worked to edit and improve it over time. This article has also been viewed 35,981 times. Learn more Use cut glass and lead/solder to

Lead glass - Wikipedia

Lead glass, commonly called crystal, is a variety of glass in which lead replaces the calcium content of a typical potash glass. Lead glass contains typically 18–40% (by weight) lead(II) oxide (PbO), while modern lead crystal, historically also known as flint glass due to the original silica source, contains a minimum of 24% PbO. Lead glass
