This article presents a contextualized psychology of peace in Asia that considers features of direct and structural violence in the region. In Asia, direct violence takes the form of intrastate

Peace Psychology in Asia | Request PDF

Peace psychologists from the Global South call for a socially transformative kind of peace psychology that grapples with the problem of epistemic violence and manifest in the marginalisation of

What is Peace Psychology the Psychology of?

Peace psychology emerged as a distinct area of research and practice during the Cold War, when the preeminent concern was the prevention of nuclear war. Now global in scope, the focal concerns of peace psychologists are nuanced by geo-historical contexts and the distinction between episodic violence and structural violence, the latter of which also kills people, albeit slowly through the

Peace psychology - Wikipedia

Peace psychology is a subfield of psychology and peace research that deals with the psychological aspects of peace, conflict, violence, and war. Peace psychology can be characterized by four interconnected pillars: (1) research, (2) education, (3) practice, and (4) advocacy. The first pillar, research, is documented most extensively in this
