Finding the right fittings and pipes is essential for completing plumbing projects, and it's easy with our wide selection. We offer copper pipes for HVAC systems or for moving hot water and those made of schedule 40 and schedule 80 PVC for cool water and drainage.

[Pipe fittings, connectors, couplings, valves, adapters and ...](#)

NPT is the abbreviation for National Pipe Thread Tapered which is the thread standard used in the United States for galvanized, black, brass, stainless steel, PVC, ABS or other materials to connect pipes and fittings in plumbing.

[Guide on How to Choose the Right Plumbing Pipe](#)

Brass plumbing pipes are easier to thread than steel pipes and excellent for hot-water and large distribution systems, such as pump fittings, water tanks, and wells. Brass pipe normally tends to last longer than any other plumbing material. Brass pipe generally comes in 12-foot straight

lengths.

#### [Pipe & Fittings | The Home Depot Canada](#)

Plumbing pipes are rated for different usages, so using an incorrect pipe can lead to a reduction in efficiency or even costly leaks and repairs. There are several types of pipes: water pipes, gas pipes, drainage pipes, waste pipes, beverage pipes and ones that are rated for high pressure or heat. Some options are PEX pipes and fittings, PVC pipes and fittings, ABS pipes and fittings and Brass

Enviro factor: Copper plumbing pipe won't pollute your drinking water, and old pipes can be recycled. However, copper mining and manufacturing are so environmentally damaging that despite its longevity and recyclability, copper plumbing pipe is nowhere close to a green product.

#### [5 Main Types of Plumbing Pipes Used in Homes - The Spruce](#)

PEX, or cross-linked polyethylene, pipe is one of the newest and most popular pipes to hit the plumbing market. PEX is used only to supply water. PEX is a pipe that is rigid enough to withstand the pressures of water supply but flexible enough to weave throughout walls, ceilings, basements, and crawlspaces.
