At the start of the decade, Niklaus Wirth, designer of the Pascal programming language, published a paper titled "Program development by stepwise refinement" [41] in which he considered "the

[New Program Development Process | Centre for Academic ...](#)

The new program development process begins with a pre-concept paper that expresses an idea for a new program. When approved through the Strategic Enrollment Management (SEM) committee, the academic school will gather input from a variety of sources both internal and external to the College resulting in a concept paper. After the concept paper is approved by SEM a business plan is developed.

[Curriculum Development - The Learning & Teaching Office ...](#)

Curriculum Development involves developing a series of educational experiences students complete in order to earn a degree. Creating a new degree program involves defining learning goals and learning outcomes, and describing how the program of study is designed to help a student achieve these goals.
