**Fragility, Aid, and State-building - UNU-WIDER ; UNU-WIDER**

Considerable international resources are therefore devoted to state-building and institutional strengthening in fragile states, with generally mixed results. This volume explores how unpacking the concept of fragility and studying its dimensions and forms can help to build policy-relevant understandings of how states become more resilient and the role of aid therein.

This book describes the contrast between the strong economic growth and democratization that have occurred in Africa and its stalling political progress. It presents and discusses fragility as the phenomenon that has caused the state to remain weak and faltering and has led to at least one third of

*Addressing State Fragility in Africa - ETH Z.*

State fragility is seen as a threat not only to local safety and development, but also to global security. Yet, while ambitions have been high, external state-building programmes introduced in Africa's fragile setting have, in the main, not succeeded in meeting the goals of effective institutions and good governance.
