### Study of double parton scattering using $W + 2$ -jet events ...

Study of double parton scattering using  $W + 2$ -jet events in proton-proton collisions at  $s = 7$  TeV Citation Charchyan, S., V. Khachatryan, This paper presents a study of DPS based on  $W + 2$ -jet events in pp collisions at 7TeV. DPS with a  $W + 2$ -jet nal state occurs when one hard interaction produces a W boson and another produces a dijet in the same pp collision, as sketched in gure 1
