What Is Music?: Solving A Scientific Mystery by Philip  
Dorrell

This books outlines the author's new and original scientific theory about music - that music is a super-stimulus for the perception of musicality, where musicality is a perceived aspect of speech that provides information about the speaker's internal mental state.

Music: What is Music? Solving a Scientific Mystery  
Solving a Scientific Mystery The main idea of the theory is that music is a super-stimulus for the perception of musicality, where "musicality" is actually a perceived property of speech. "Musicality" refers to the property of music that determines how "good" it is, how strong an emotional effect it has, and how much we enjoy listening to it.
