Wire wrapping can be used to make a loop for joining different components together, such as when creating a wrapped wire loop or wrapping a pendant. Through wire wrapping, you can also secure beads to a form , or even attach non bead items such as wire wrapping thinstone cup chain onto a bangle .

[Basic Wire Wrapping Techniques | Making Jewelry](#)

So that's the three steps, cutting the wire, making the first loop, and then coiling around. I also wanted to show you this other type of bead. It's not round and this is called a briolette cut.

Wire Wrapped Pendant: 11 Steps (with Pictures)

About five years ago I was making ceramic pendants and looking for special custom settings when I found wire wrapping. Wire wrapped settings require few materials and tools and use no heat or glue. They are so versatile that once you have the basics down you can create a beautiful setting for anything from a cabochon to a seashell.
